GENPLUS AUTO PARTS

INNOVATIVE PREMIUM RELIABLE

MISSION STATEMENT

To provide an uncompromising product with quality and satisfaction, deliver innovative and reliable lighting solution.

ABOUT GENPLUS

GENIUS AND PLUS ARE THE ORIGINS OF OUR NAME

Genplus Auto Parts was established in 2007. Ten years ago, our first launch of vehicle lighting was a Daytime Running Light. For many years now, Genplus is a competent designer and manufacturer.

+10 YEARS of experience in LED automotive lighting system development, we are able to provide a wide range of reliable and premium LED lighting fixtures, including

- *Headlights*
- *Fog lights*
- *Daytime running lights*
- *Working lights*

Nowadays, at Genplus Auto Parts, to listen to the clients and take pride in putting out the uncompromising and superior LED lighting system based on our abundant know-how, lighting system R&D ability, and strict quality assurance to keep our clients satisfied is the goal we are constantly striving toward.

FROM IDEA TO PRODUCTION

Outstanding and Innovative R&D Ability

We have a dedicated R&D team who is backed with the accumulated expertise and the extensive knowledge of a complete lifecycle product design, optimization and manufacturing.

We take ownership of work we do from beginning to end. Our effective and resourceful team is continuously taking action to further the performance, quality, and functionality of the lighting beyond clients' expectations.

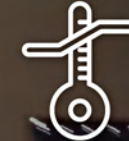

The clients' needs are our guidelines to develop innovative and tough lighting. We are all engaged in our commitment to doing what is right for our clients, from idea/concept, complete product lifecycles to production.

TOP-LEVEL MEASUREMENT

Thanks to our test equipment, we know carefully what we provide. Our top-level measurement let us know more about our products and quality control.
