

# FOUR-IN-ONE PARKING WARNING LIGHT

## Product Features

- Universal Use Design
  - Simple installation, suitable for many vehicle types
  - Match the rear trunk angle, the light strip mechanism has a high matching characteristic
  - Use the hyper-capacitance to save power. Apply the solar ray or the side light to recharge, which won't consume power from the vehicle battery
- Convenient Operation
  - The control sensor will automatically judge the vehicle state and environment (LUX under 30 units)
  - Needless to operate manually

## Product Function

Side light

Brake light

Reversing light

Parking light

## 四合一微笑駐車燈

### 產品特性

#### • 通用型設計

- 安裝簡易、多數車種均可安裝。
- 配合後行李箱蓋曲度安裝，燈帶具有高匹配性能。

#### • 再生能源供應

- 超電容裝置儲存電力，運用太陽能充電或行車電源充電（開啟小燈或煞車時），無須消耗車輛電瓶電源。

#### • 操作簡便

- 駐車燈啟動由感測器全自動判斷車輛使用狀態及環境(環境光線低於30 LUX(流明)時)，於需要作動時自動開啟或關閉，不須手動操作。
