Fuel Pump

TAGA
Original Parts

Which Fuel Pump brand is customers always specify?

TAGA all series Fuel Pump is the only one brand that customers always specify --- ***Made & Technology by iParts Taiwan.***

The reasons why TAGA Fuel Pumps always popular and keep Hot selling !!!

• **Nice price strategy**

- ✓ The prices are smart able to adjust by market situation and demand quantity.

• **Reliable quality**

- ✓ We always do the full examination and request the defective rate under 3‰.
- ✓ We provide one year warranty starting over the manufactured date.
- ✓ ISO9001、ISO14001、ISO18001、TUV TS16949 Certificated.

• **Diversified product line**

- ✓ Japanese / Korean / American / European major commercial vehicles we provide.

• **Comprehend competitive market**

- ✓ We respect all responses from customers since we see it as most precious and valuable treasures for us to move forward.

• **Attractive packaging**

- ✓ We customized **TAGA** special packing box and materials to let you sell it with unique no matter the color decided, layout edited, stickers chosen or even a tiny detail.

TRADE MARK  AND PATENT NUMBERS 01533864(TW)

Fuel Pump TG-380300

- ▶ $\geq 100\text{L/H}$
- ▶ 294.92g
- ▶ 3 Bar
- ▶ $\leq 5.5\text{A}$

Application

Technical Specification

Fuel pressure	3 Bar	Mechanical Data	
Delivery rate at 3 bar and 22°C	$\geq 100\text{L/H}$ at 12V	Diameter	38mm
Pressure limiting valve	≥ 6.5 Bar	Length	112.8mm
Fuel compatibility	Gasoline	Weight	294.92g
Diesel compatibility	Not released	Mounting	Clamping
Operating temperature range	-30°C to 65°C	Electrical Data	
Storage temperature range	-40°C to 75°C	Supply voltage	9-16V
Max.vibration	Not released	Operating voltage	12V
		Load current at 3 bar and 22°C	$\leq 5.5\text{A}$
		Characteristic	
		Surface coating	Plating colorful Trivalent chromium(Eco)
		Color	Colorful
		Non-return valve	Internal
		Fuel filtering	External, on pressure side

TAGA Original Parts | Fuel Pump TG-382600

Fuel Pump TG-382600

- ▶ ≥80L/H
- ▶ 219.31g
- ▶ 2 Bar
- ▶ ≤5.2A

Application

Fuel pressure	2 Bar
Delivery rate at 3 bar and 22°C	≥80L/H at 12V
Pressure limiting valve	Not released
Fuel compatibility	Gasoline
Diesel compatibility	Not released
Operating temperature range	-30°C to 65°C
Storage temperature range	-40°C to 75°C
Max.vibration	Not released

Technical Specification

Mechanical Data

Diameter	38mm
Length	72.6mm
Weight	219.31g
Mounting	Clamping

Electrical Data

Supply voltage	9-16V
Operating voltage	12V
Load current at 3 bar and 22°C	≤5.2A

Characteristic

Surface coating	Plating colorful Trivalent chromium(Eco)
Color	Colorful
Non-return valve	External
Fuel filtering	External

Fuel Pump TG-500700

- ▶ $\geq 90\text{L/H}$
- ▶ 672.37g
- ▶ 5 Bar
- ▶ $\leq 8\text{A}$

Application

Technical Specification

Fuel pressure	5 Bar	Mechanical Data	
Delivery rate at 3 bar and 22°C	$\geq 90\text{L/H}$ at 12V	Diameter	52mm
Pressure limiting valve	≥ 9 Bar	Length	180mm
Fuel compatibility	Gasoline	Weight	672.37g
Diesel compatibility	Not released	Mounting	Clamping
Operating temperature range	-30°C to 65°C	Electrical Data	
Storage temperature range	-40°C to 75°C	Supply voltage	9-16V
Max.vibration	Not released	Operating voltage	12V
		Load current at 3 bar and 22°C	$\leq 8\text{A}$
		Characteristic	
		Surface coating	Oil paint
		Color	Blue
		Non-return valve	Internal
		Fuel filtering	External

TAGA Original Parts | Fuel Pump TG-A85

Fuel Pump TG-A85

- ▶ ≥95L/H
- ▶ 749.30g
- ▶ 3 Bar
- ▶ ≤6.5A

Application

Fuel pressure	3 Bar
Delivery rate at 3 bar and 22°C	≥95L/H
Pressure limiting valve	3.5Bar ± 0.2
Fuel compatibility	Gasoline
Diesel compatibility	Not released
Operating temperature range	-30°C to +70°C
Storage temperature range	-40°C to +105°C
Max.vibration	Not released

Technical Specification

Mechanical Data

Diameter	114mm
Length	250mm
Weight	749.30g
Mounting	Clamping

Electrical Data

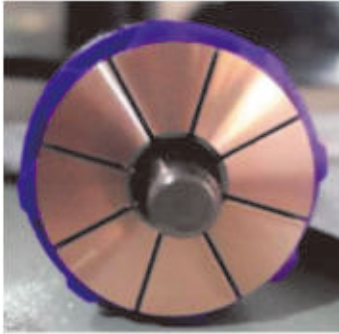

Supply voltage	6 to 15 V
Operating voltage	12 V
Load current at 3 bar and 22°C	≤6.5A

Characteristic

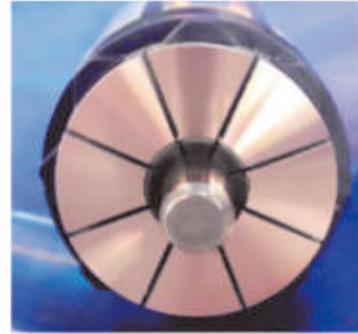

Surface coating	None
Color	white
Non-return valve	bottom of spray device
Fuel filtering	None

❖ Commutator different

TAGA's pump commutator is with 0.8% Silver (Ag).

Other suppliers pump commutator is with 0.3% Silver (Ag).

Commutator is one of the most important parts of pump so we use the best material to produce it. More proportion Ag make the pump performance more stable life time more long.

❖ Material Different

TAGA's produce the with 100% original PPS, ADC-6, POM and control thickness with lapping machine import from Korea.

Other suppliers produce the second used PPS, ADC-6, POM common lapping machine from China.

❖ Produce facility different

Back cover and vane produce:

TAGA's pump back cover & pump vane produce with CNC system from Japan and full-auto robot.

Other suppliers pump back cover & pump vane produce by common CNC system from China with manual.

❖ Produce facility different

Armature produce process:

TAGA's use A-top wiring & welding machine from Italy and DSK dynamic balance machine from Japan to produce armature with automatic.

Other suppliers use common machine from China to reduce armature with manual.

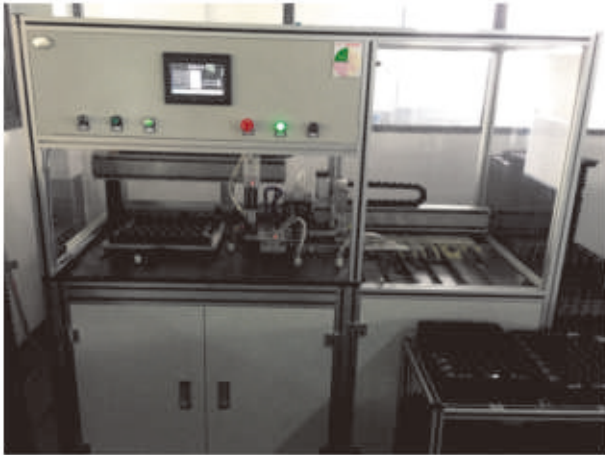

TAGA
Original Parts

❖ Produce facility different

Pump Vane & Impeller Gap testing:

TAGA's pump vane & impeller gap test 100% by automatic testing machine to keep the performance better.

Other suppliers control pump vane & impeller gap by CNC, and just test them randomly and manually.

TAGA
Original Parts

Made & Technology by iParts Taiwan

Origin of TAGA = born with legend

The eagle's head is imprinted with our valued customers especially the sharply eyes. As we know eagle always focus on the target and not let it go easily.

Besides, the pronounce of TAGA is similar with Taka that means eagle in Japanese. Japan occupied huge percentage on auto parts market and the quality control is awesome with no doubt. Following this spirit to make TAGA original parts inherited the superiority and surpass it. We believe that it's the most reason why people always choose TAGA.
